

I OPPOSE the proposed rules to loosen current rules on ownership in local areas. It will not serve the public interest to allow for a single company to control the media outlets in rural areas , such as mine. A diversity of views is a critical component of a democracy - rural and urban alike need access to news from more than one owner. If a single source was in my community was similar to FOX TV I would never get a balanced view of the world. Please reject the proposed rules and hold true to your mandate to make decisions based on what is best for the public - NOT CORPORATE BOTTOM LINES.

Sincerely,  
Norma Turner
